

Threading Class at Von Lee School

Sunday August 23, 2009 at 10am

The Threading technique has been respected for over 1000 years in India and other parts of Asia which only uses 100% cotton thread to gently remove unwanted individual facial hairs from the root. This alternative practice to waxing and tweezing is preferred by clients for many reasons, including:

- Eliminates irritation or redness so it is great for clients with sensitive or acne-prone skin
- Gives you a competitive advantage against others while most do not know this beneficial technique
- Reduces costs and yields higher profits
- Allows Esthetician to generate the greatest precision and results

Please register early as space is limited. The deadline for registration is August 12, 2009. Certificates will be awarded upon successful completion.
